Statement of Product Cleanliness and Decontamination

Company Name	RMA#
Contact Name	
Street Address	Phone, Fax
City, State, Zip	Email Address

It is the policy of Campbell Scientific, Inc., to protect the health of our employees and provide a safe working environment. In support of this policy, Campbell Scientific requires that all products returned for service be (1) clean and (2) uncontaminated by harmful substances, such as hazardous materials, chemicals, insects, and pests.

Use this form to describe the environment from which the equipment was taken, any hazardous substances to which the equipment was exposed, and any cleaning and decontamination processes that were performed.

ANY RETURNS WITHOUT THIS COMPLETED FORM WILL NOT BE PROCESSED. To avoid delays in processing your return, send this form BEFORE your products arrive. Please do not put this form in a box with your returned products. If the form is not received within five working days of product receipts, or found to be incomplete, the product will be returned unopened at the sender's expense. Campbell Scientific reserves the right to refuse service on products where specific applications may cause health and safety concerns for its employees.

Thank you for supporting our efforts to protect the health and safety of our employees.

Please provide the following information:

1. Describe the location or application where the equipment was installed (e.g., golf course, lake, forest, power plant).	
2. Describe the environmental conditions to which the equipment was exposed (e.g., sewer, stagnant water, herbicides, radioactivity, etc.).	
3. Did you clean and decontaminate the equipment?	○ YES *Fill out the rest of the form.* ○ No, not required. Equipment was used in an environment free from health and safety concerns. *Sign document below.*
4. Describe how the equipment was cleaned and decontaminated.	
5. List all substances of concern to which the equipment has been, or potentially has been, exposed (attach MSDS sheets, if any).	

I hereby certify that the returned equipment has been cleaned and decontaminated according to good industrial practices and is in compliance with relative regulations, or "as is" this equipment poses no health or safety risks to the recipient.
